

# FLOWER CAROL

G Em  
Spring has now unwrapped the flowers,

C G  
Day is fast reviving.

G Em  
Life in all her growing powers

C G  
Towards the light is striving:

G Em  
Gone the iron touch of cold,

C G  
Winter time and frost time,

G Em  
Seedlings, working through the mould,

G C G  
Now make up for lost time.

G Em  
Herb and plant that, winter long,

C G  
Slumbered at their leisure,

G Em  
Now bestirring, green and strong,

C G  
Find in their growth a pleasure:

G Em  
All the world with beauty fills

C G  
Gold the green enhancing;

G Em  
Flowers make glee among the hills,

G C G  
And set the meadows dancing.

G Em  
Earth puts on her dress of glee;

C G  
Flowers and grasses hide her;

G Em  
We go forth in charity,

C G  
We are friends beside her;

G Em  
For, as man this glory sees,

C G  
In the waking season,

G Em  
Reason learns the heart's decrees,

G C G  
And hearts are lead by reason.
