

Angels Watching Over Me (Sun & Moon)

Traditional Words and Tune Adapted by ELEG for SBWE

All night, all day, angels watching over me, my love

All night, all day, angels watching over me

In the morning, the sun rises

I give thanks for the shining light

All night, all day, angels watching over me, my love

All night, all day, angels watching over me

As day is ending, the moon reprises

It's beautiful glow in the sky at night

All night, all day, angels watching over me, my love

All night, all day, angels watching over me
